

# Paul M Ridker 先生 来日記念講演会 in 千葉

日時

平成29年 9月 25日 月 17:30~19:00

会場

千葉大学医学部附属病院 3階「ガーネットホール」  
〒260-8677 千葉県千葉市中央区亥鼻1-8-1 TEL:043-222-7171 (代表)

開会のご挨拶

千葉大学大学院医学研究院 循環器内科学 教授 小林 欣夫 先生

## 特別講演

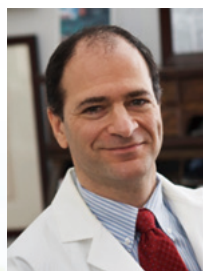

座長

千葉大学大学院医学研究院 細胞治療内科学 教授 横手 幸太郎 先生

# Inflammation and Atherosclerosis : Past Data and Future Directions

Paul M Ridker 先生

(Eugene Braunwald Professor of Medicine, Harvard Medical School)

Paul M Ridker, MD, MPH 先生 ご略歴

- Eugene Braunwald Professor of Medicine, Harvard Medical School
- Director, Center for Cardiovascular Disease Prevention  
Brigham and Women's Hospital, Boston, Massachusetts

Dr. Ridker serves as the Eugene Braunwald Professor of Medicine at the Harvard Medical School and directs the Center for Cardiovascular Disease Prevention, an epidemiologic research unit at the Brigham and Women's Hospital in Boston focused on population biology, genetic epidemiology, and translating the biology of innate immunity and vascular inflammation into clinical practice. Among many ongoing multi-national projects, Dr. Ridker currently serves as Trial Chairman of the Canakinumab Anti-Inflammatory Thrombosis Outcomes Study (CANTOS) and the NIH-sponsored Cardiovascular Inflammation Reduction Trial (CIRT), two large-scale outcome trials seeking to address whether reducing inflammation without altering LDL cholesterol can reduce vascular event rates. The recipient of numerous awards and honorary degrees, Dr. Ridker has had continuous investigator initiated RO1 grant support from the NIH throughout his career and, with Professor Julie Buring, direct a T32 training program in Cardiovascular Epidemiology which is in its 26th year. Honored with a Distinguished Scientist award by the American Heart Association, Dr. Ridker has an H-index > 160 and is the author of more than 800 manuscripts. He is most proud, however, of his many trainees who have gone forward to do such wonderful work.
